

Regarding call letters for campus stations

Call letters for campus stations are assigned by the Federal Communications Commission at the request of our Washington office.

Stations located west of the Mississippi will be assigned only calls beginning with K. Stations east of the Mississippi will receive calls beginning with W. All calls for this class of service must now contain four letters.

On the enclosed form you should list from ten to twenty calls you would like to have, in order of preference. The first available call will be assigned to you and you will be notified.

The form should be sent to the Washington address shown.
